Leadership & Management

COURSE INTRODUCTION

Effective strategies are the product of motivated teams and managers who continually address issues and challenges together. Strategic Planning is designed to implement strategic plans at all levels within the organization, especially at the levels where representatives interact with the customers. Effective business units can streamline operations, improve quality, increase profitability and have fun working together in spite of intense world-wide competition and corporate downsizing. This Strategic Planning training provides specific and practical help on implementing and effectively using strategic planning skills. The workshop will refine internal processes and provide insight into changing business unit dynamics. The compendium of activities within this workshop will add real value to training exercises by taking critical thinking skills out of the box and into the workplace. Learners will sharpen their critical thinking skills and develop thought processes that are creative, accurate and assumption-free.

Your perception of the strategic planning process and application will lead you to understand how marketing strategies can develop profitable business by setting achievable objectives, delivering them by developing cost effective local and

international marketing plans. You will achieve this by adapting your approach to the relevant marketing strategy and gaining skills in multicultural market analysis, strategic development and planning, and cost effective implementation for the purpose of your goal setting.

COURSE OBJECTIVE

Participants will learn to:

- Gain knowledge of strategic planning processes
- Organize individual parts to make a complete team
- Translate mission statements into reality: Once it's written, what else needs to happen?
- How to recognize organizational barriers to planning
- Identify threats to and opportunities for your organization
- Understand your role in your firm's planning process
- Effectively sell your strategic plan to senior management
- Gain a confident approach to marketing strategies in a diverse cultural context.
- Develop the right attitude and skill to manage multiple customer and partner perspectives.
- How to cost effectively implement the plans through cross border management of the marketing mix including product and service portfolio development, multinational pricing, communication.
